

End Prep Time.

TCI MACHINE-READY BLANKS

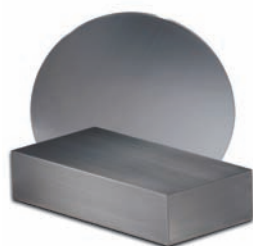

Don't spend operator and machine time on prep work. Start production immediately when you use our machine-ready blanks. No sawing, grinding, flattening, or squaring necessary. Not in-house. Not by vendors.

Our blanks arrive to your specifications, guaranteed as close as $\pm .0005$ " dimensionally and $\pm .0002$ " flatness, squareness, and parallelism. With tolerances

consistent from part-to-part, you can eliminate the time spent adjusting setups, non-value added truing/squaring cycle time, and tool changes.

You'll have more time for moneymaking value-added machining operations and that will increase your throughput. Call us today and end your prep time with a single PO.

Warehouse Distributor • Precision Sawing • Double-Disc Grinding • Blanchard Grinding • Duplex Milling
